Why Germany?

Germany is the largest European Economy and **4th Largest Economy of the World** after US, China & Japan.

Germany is world leader in engineering, most of the advanced medical machines and equipment are engineered and manufactured in Germany.

Dearth of Nurses and Caregivers – With increased **life expectancy** and an **aging society**, combined with the decreasing number of young people beginning their working lives, the demand for professional nursing care is rising.

Some **50,000 Nursing positions** are currently vacant and German Nursing Council predicts up to **3,00,000 vacant positions** to be filled **by 2030**.

Germany is open to foreign nurses with **unlimited working visa**, equal job opportunities, equal working conditions and **career development opportunities**.

Nurses from countries such as Philippines, Mexico, Vietnam are happily working and settled in Germany.
