

## **Best practice I : Holistic development**

## **Best practice II : Innovative use of ICT**

**Objective-** To ensure the holistic development of students by inculcating the appropriate values to make them physically fit, intellectually sound and emotionally empathetic.

**To adopt a dynamic approach to impart education using innovative techniques of ICT.**

**Context-** In developing country like India, to fight after-effects of COVID-19, skilled people with Ethical values are the need of hour. For this digitalization of education is great tool to achieve the goal.

**Practice I :** Besides academic programmes the institution has formed many clubs and societies like Sarv Sahitya Sabha, Kala Surabi, Sur Taal Sangam, Newton's club etc. to conduct co- curricular activities. The college has active NSS, NCC, Youth club and Central Association to develop leadership traits.

**Practice II :** The teaching can bring out the best outcome when it is supplemented by Audio-Visual aids, presentations and demonstrative videos. The working in the support services like admission, examination, results, payment of fee and scholarships etc. becomes fast by using online services.

### **Evidence of Success:**

**Good academic results and achievements in inter college and youth festivals are testimony of success. Exhibition Cum Sales by students attract good number of customers. NSS camp had great impact on village residents.**

### **Problems Encountered:**

**Delayed Grants for camps and limited resources are a hurdle to implement practices.**

**Weak signals of internet, slow speed of computers, data breach and online threats are problems in using ICT.**
